- Theoretical Background

### TAKE THE TEST

- Good way to review
- Get free podiatric CMEs
- Send answers to:

[profDevelopment@solesupports.com](mailto:profDevelopment@solesupports.com)

# 2

If you are not able to come to one of our live seminars\*, the next best way to become a certified Sole Supports provider is to obtain one of our Certification Supply Kits. The supply kit contains everything you will need to learn the casting technique plus the casting boxes you will need to use and submit for review. See the list of contents below for the comprehensive details of what is included. The kit may be ordered from our office of professional development at [profDevelopment@solesupports.com](mailto:profDevelopment@solesupports.com) or call toll-free: 888-650-7653 x470

The overall sequence of tasks for remote certification are as follows:

- 1) Watch the DVD on the theory behind Sole Supports (available free upon request from same contact info above)
- 2) Order a Certification Supply Kit; review the enclosed Casting & Design CD to learn how to cast
- 3) Send us three good casts of different feet; if they pass our QC inspection then you will be given an account number. If any do not pass you will be able to continue submitting new cast until three pass.

Each Certification Supply Kit contains:

6 TEST casting Boxes (to be mailed in and pass inspection)

(+ enables unlimited re-supply)

6 Order Forms

6 Fed Ex Postage Free Labels

Reference Manual

10 Full Color Patient Orthotic Brochures

Sample of Patient Education Sheets (10 topics) 1 of each

3 Orthotic Samples

Set of Top Cover Samples

2 Full Color Posters

Met Cushion

1 Pen Tester

Knee Cushion

Sheet of Felt Pad Markers for Cutouts

# 3
